

Maryam: If we are here to help god or source with data that we receive through our experiences so god can also learn and evolve, How's that possible that we are keep repeating the same lessons over and over during history? They are millions of people in the world for thousands of years that they are going through the same lessons like love hate forgiveness and so on

My question is when god is finally learning these lessons so we can move on? :-)

Why these lessons keep repeating through different souls?

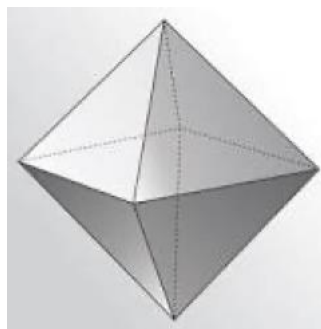

Ulla: This year Russia has hacked elections in Moldova, Georgia, Venezuela and US to install puppet regimes in power. Wrong is on the throne and truth is on the scaffold. Do we live in Bizarro World or will the truth set us free?

I'd like you to tell us more about our "light bodies"?

Wendy Kennedy said our current "3D" light body (3-frequential) is shaped like a **merkaba** (two star tetrahedrons with 3-based pyramids). One pyramid spins in one direction, the other spins in the opposite direction at the same time.

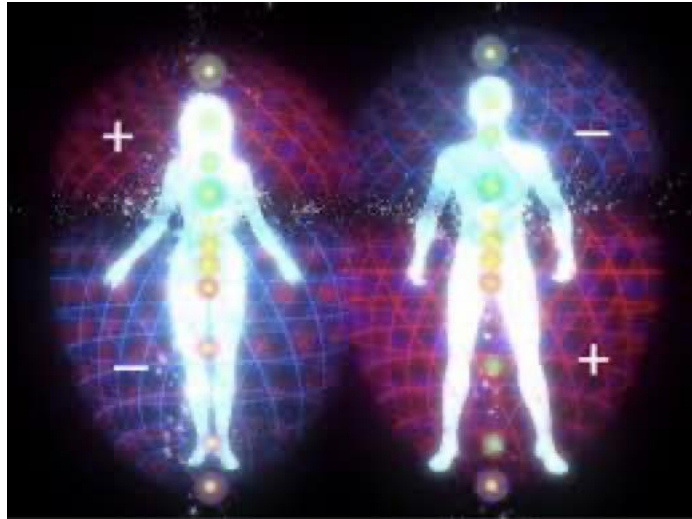

But we are moving into an octahedron (two 4-based pyramids), which is the "5D" (5-frequential) light body. It also spins up in CCW direction, then down in CW direction.

She also said the **meridian system** is different in the "5D" body, so that healers will find the old 3D spot on a meridian may have shifted to a different location, as we shift.

Also is this diagram reflecting the truth about **positive vs. negative charges** in male vs. female bodies or not?

**Is this how you see our light bodies or meridians shifting, as we ascend the frequencies?
Please explain these "New Age concepts" in their real terms as a psycho-spiritual
healer.**

Thank you,

Ulla
